SUMMER INTERNSHIP

Company: HDFC Bank, Faridabad

Duration: March 2013 – May 2013 (10 Weeks)

Project Title: "RBI's policy decision to dispense licenses to new banks: Impact on the business of the existing new generation banks."

Objective:-
- To understand the regulations and reforms of RBI for Indian banking sector and to understand the overall developments in the banking sector.
- To analyse the performance of existing new generation banks over the years and the impact that will created on their business when new banks will enter the sector.

Learning:-
- The project report offered me an insight of the overall developments in banking in India from the very first bank that was established in the year 1770.
- The internship also helped me to understand the regulations that are provided by RBI for operations of bank hence helping me to understand the day to day operations activity of the retail banking.

PROJECT UNDERTAKEN	**Title: -** To study the daily volatility of exchanges in Indian Currency Future Market. **Tools used: -** SAS **Introduction:-** Volatility in the exchange rate is used to refer the dispersion of returns. The exchange rates could display higher volatility because of many factors like deviation from fundamentals, macroeconomic shocks or other domestic and global news. The project is used to study the daily volatility of exchanges in the Indian Currency with other currency that it is traded in. The Indian currency is traded against global currency of Euro, GBP, JPY and USD.
